

# B2B & B2G

## TRANQUIL INTERCHANGE OPTIMIZATION & SAVINGS

Our payment gateway software creates a Zen-like hum in B2B and B2G offices. We've turned payment processing into a stress-relieving activity. Using a platform optimized for interchange lowers your credit card processing costs and saves time.

Sit back and relax while processing Level II and Level III transactions.

### USER EXPERIENCE

- Payment cart
- Bill presentment
- Recurring billing
- Multiple reporting options
- Website payments
- Secure customer storage vault
- Fraud tools
- Associate multiple accounts

### FEATURES

#### Integrated partnerships

Developer-friendly API with numerous integrated 3rd party solutions, streamlining your work flow, while increasing available features and functionality.

#### Time savings

Our platform identifies which transactions benefit from adding Level II and Level III data, intelligently calculating and pre-populating fields.

#### Interchange savings

Visa and MasterCard generally charge a lower interchange rate for Level II and Level III transactions. We make it easy to add additional data that's required for these transactions.

#### 5-star service

You won't find better service for payment software anywhere else.
