

PAYMENT LINK

Secure, Efficient, Fast.

Collecting payments any time of the day has never been easier.

Payment Link by PayTrace is a simple, secure way for merchants to get paid, fast.

Tracking down payments is time-consuming and takes you away from running your company. Payment Link is a way to automate payments with little to no code, programming or using a developer.

Merchants with complicated billing systems can easily use this solution to send secure payment requests to customers. Card numbers pass through PayTrace's customer vault, reducing liability for merchants.

Payment Link is perfect for:

- B2B offices including manufacturers, distributors, suppliers, and vendors
- Medical offices
- Non-profit organizations
- Property management
- Insurance offices
- Advertising agencies

PayTrace is the only independent payment gateway platform making B2B merchants happy by delivering secure cloud-based payment acceptance and integrated solutions.

We empower sales partners by offering high value SaaS technology solutions to businesses. Processing more than \$35 billion in the past year, PayTrace is committed to making merchants happy with 5-star support while providing comprehensive, easy-to-use payment solutions that lower processing costs through [interchange optimization](#) and increase security.
